Our company is dedicated to the mission of bringing the true essence and character of California's wines to the world. We direct import approachable, full-bodied, well-balanced wines from the U.S. at very affordable prices. Whether you're interested in a wine for everyday drinking or award-winning Napa Valley wines we can accommodate you and direct you to the perfect choice. Many of our wine brands are fruit-forward, easy to drink and food friendly - perfect for everyday celebrations. The cornerstones of our portfolio are Cabernet Sauvignon, Old Vine Zinfandel and Merlot varietals. We believe in good friends and good times made possible with great wines that are delicious on their own or are perfect companion to food.
